WE PROTECT YOUR BUSINESS, YOUR CLIENTS AND THE INDUSTRY **SAFETY AND QUALITY GUARANTEED!**

QCA Accreditation is a process of comprehensive validation that confirms a promotional products supplier has quality assurance processes in place to detect and prevent non-compliant products from entering the marketplace. QCA standards not only address regulatory compliance, product safety and quality issues, but also legislative, social, and environmental requirements.

On-Site Testing: Since 2007, Prime has had a full-time in-house testing lab. All incoming shipments at our warehouses are tested for consistency and compliance. A full-time safety and regulatory specialist is dedicated to ensuring that our products and printing inks meet all applicable requirements.

Third-Party Testing: In addition to our in-house testing, most Prime products and all our CPSIA-compliant decorating inks are tested annually at CPSC approved third-party laboratories.

California Proposition 65 (Prop 65): Prime Line's products meet all applicable federal safety requirements as enforced by the FDA, CPSC, and FCC. Products shipping to California are also subject to Proposition 65.

# DISTINCTIVE DECORATING

## SILK SCREEN

The direct imprinting of a design or copy into the surface of a product. Image is pressed through tensioned nylon mesh, leaving a paint-like appearance. Sharper imprint than Pad Printing, though it requires a relatively flat surface without obstructions.

## DEBOSS

A technique for leather and other substrates in which a metal die is created from artwork. The die is then heat-pressed into the material, leaving an image of the artwork in a recess creating a classic sophistication.

## VIBRATEC<sup>SM</sup> 4CP

Delivers high-resolution photo-quality images on a broad range of products. Make a bold statement. Artwork Requirement: (CMYK) Four-color process.

## SPOT COLOR TRANSFER

Imprinting for detailed and multicolor imprints for better appearance on certain substrates. Holds registration on a wide range of surfaces such as: insulated padding, PVC, nylon, neoprene, ABS and more.

## LASER ENGRAVE

A clean, polished appearance. Light burns away the surface to reveal the substrate. Works best when the item's surface is a different color from the substrate. A contrasting black imprint can be created with Laser Oxidation when the surface and the substrate are the same or similar color.

## 4CP TRANSFER

Enhance your message with our patented process which converts photo-quality images and graphics into a spectacular imprint. Artwork Requirement: (CMYK) Four-color process.

## EMBROIDERY

A traditional method of decorating textiles with needle and colored thread. Available for select caps, apparel, bags, blankets, towels and aprons.

## PAD PRINT

An inked image is transferred from a photo-etched plate to a thin, soft silicone pad, which is then pressed against the part. The pad can wrap itself as much as 180° around a small object, and ink coverage is excellent. One color is printed at a time and registration between colors can be tight – up to four colors.

## 4CP DIGITAL LABEL

Full-color graphics and photography available on a variety of products. Image can be encased by Lustredome™, a clear plastic epoxy dome or covering. Artwork Requirement: (CMYK) Four-color process.

Tune in for the latest in mobile chargers, wireless speakers and earbuds designed to show off your company logo.

## ISACORD POLYESTER THREAD COLORS

We carry the full range of ISACORD Polyester Thread colors. Please refer to primeline.com for more information.

## ARTWORK REQUIREMENTS

Artwork should be submitted in vector format with all fonts converted to outlines. Please include any additional information which will help process art submissions quickly and accurately. Artwork must always include P.O.# in the subject of the email and contact information in the body of the email. Orders without correct P.O.# referenced will be rejected by the factory. We recommend submitting a mockup of the art on the item for comparison. Factory cannot be responsible for errors otherwise.

**Note:** Artwork will be sized to maximum available imprint area unless otherwise specified on Purchase Order.

**Acceptable File Size:** Up to 5.0 MB in size

**Acceptable Formats:** Illustrator (CC or earlier), vector based AI, EPS or PDF files. Non-vectorized Photoshop (CC and earlier, 300 dpi at 100% size only) and TIFF (hi res, b/w only) files that are saved as 8-bit CMYK or grayscale can be used for VibraTec<sup>SM</sup> 4-Color Process Printing, 4-Color Process Digital Labels, Spot Color Transfers and other full color digital applications. **Note:** We do not accept either Word files or CorelDraw files for art submission. Zip files are also not accepted.

**QR Codes:** Vectoring and ink bleed can slightly alter the QR Codes and therefore, the factory cannot guarantee readability. Not recommended.

**Art Charges:** Should your art require improvements that incur a charge, you will be contacted with an estimate before any work is done. Art charges are billed at \$50(X) per hour. \$15(X) minimum billed.

**Submission:** To avoid delays please submit the art with the order at: orders@primeline.com. If the art and the order are not being submitted together send art to: art@primeline.com.

## FOB TORONTO

Only UPS Ground shipments are eligible for this program. Bill-to and Ship-to must be Canadian addresses. Item pricing includes duties, fees, customs clearance charges and freight to the Canadian port of entry. Pricing does not include taxes or freight charges (alphanbroder Canada rates) from the Canadian point of entry and appears on separate lines on the invoice. FOB Toronto Shipments are invoiced in Canadian dollars. This program is available to all UPS delivery destinations in Canada except for Northwest Territories (NT), Nunavut (NU), or Yukon (YT) provinces. Third party shipping and freight upgrades are not available on this program.
