Offering effortless, affordable and timely fashion so those who understand the transformative power of clothing can live, work and play in style.

INTRODUCING THE ULTIMATE TEE COLLECTION

The Ultimate Tee fabric is a 4.8 oz/165 gsm 60/40 cotton/poly blend. It is 15% heavier than most basic 30's tees, making for a more substantial garment. The perfect weight for a fashion tee.

By choosing this collection, you're supporting responsible cotton production that optimizes water use, improves soil health and preserves natural habitats.

Our UT Collection uses a polyester fiber made from recycled content including plastic bottles. Compared to virgin fiber, our recycled poly consumes less petroleum, emits fewer greenhouse gases and conserves water and energy. REPREEVE® Unifi, Inc.

COLORZEN®

Our heathers use approximately 30% ColorZen® cotton. ColorZen is a cutting-edge technology that allows cotton to be dyed using up to 90% less water, 75% less energy and 95% fewer chemicals. To learn more, visit threadfastapparel.com/colorzen.

Select styles and colors are offered with digitally enabled RFID tags, unlocking endless possibilities for tech savvy marketers and event planners. Compatible with all smart-phone platforms. To learn more, visit threadfastapparel.com/RFID.

ECO-FRIENDLY HEATHER

Created for environmentally-engaged, cosmopolitan and dynamic fashion lovers, Threadfast Apparel integrates timely innovation, sophisticated design and sensible functionality.

Now, more than ever, we need technology that protects our environment. That is why we chose Colorzen cotton for the heathers in our Ultimate Tee Collection.

Colorzen uses an environmentally sustainable dyeing method which minimizes waste water, toxic chemicals and energy use. To learn more, visit threadfastapparel.com/colorzen.

NOT YOUR TYPICAL TRIBLEND

Our triblend is a 50/38/12 poly/cotton/rayon blend. About 50% of the rayon and 150% of the cotton, when compared to the competition. The lower rayon content makes our triblend a much more stable and heat friendly print surface. The additional cotton creates a vintage, frosted-heather effect, which is noticeably different, when compared to a cotton/poly CVC Tee.

LUXE FINISH

When finishing our liquid jersey, the fabric is passed between calendar rollers at high temperature and pressure, smoothing out the fabric and adding a luxurious shine. The result is a soft surface, perfect for high resolution digital printing.

Threadfast Apparel is designed to enhance your style with on-trend fashion that makes you look and feel sharp, instilling confidence and attitude.

THE SOFTEST PIGMENTS YOU'VE EVER WORN

We start with a 32 singles blended yarn, then proceed with a tightly calibrated pigment dye, and finish it off with a sumptuous enzyme wash. The result is a butter-soft hand with a superb drape. Without a doubt, a far superior pigment.

HOW DO OUR GARMENTS FIT?

Our garments are built on a “retail fit”. What does that mean? Our garments are true to size. If you usually wear a size M, you’ll wear a Threadfast M. We don’t tinker with the basic measurements of chest-width and overall length. We have fine-tuned the across-shoulder, sleeve-length and sleeve-opening to create an updated, modern fit.

Our women’s basic tee is about 1” longer in overall length than most of our competition and our customers truly appreciate that added coverage. Two of our women’s relaxed styles – 203LV and 204LT - have a looser, fashion drape, while our two spandex jersey styles – 220S and 220RT- have a more active, athleisure fit. Finally, when sizing our Unisex garments for women, most customers “upsized” our garments – ex.: using unisex S for a women’s M.

We go to great lengths to make sure there are no surprises with our fit. Please reach out to us if you have any questions or concerns.
